

PhD Forum - Call for submissions

**In conjunction with 20th IEEE International Symposium on Real-Time Computing (ISORC), 2017
May 15-18, The Fields Institute, Toronto, Ontario**

The PhD forum is part of the ISORC Conference and provides a great opportunity for PhD students to present their work to a broad audience in the real-time system community from both industry and academia. The forum may also help students to establish contacts for entering the job market. In addition, representatives from industry and academia get a glance of state-of-the-art in real-time computing.

Eligibility

Enrolled as a PhD student

Benefits

- A poster presentation at the PhD Forum
- Contacts to professionals from industry and academia
- Possibility to distribute flyers summarizing the PhD work
- A (free) dinner reception

Submission

Submissions need to contain:

- Full contact address with affiliation, phone, e-mail
- A 2-page paper describing the novelties and advantages of the work of not more than 1600 words (PDF). The paper should also include name and affiliation.

Submit materials to akramul.azim@uoit.ca.

Important dates

Submission deadline: **February 22, 2017**

Notification of acceptance: March 10, 2017
